

# TOTAL VALVE SOLUTIONS

## Project Supply, Distribution, Actuation, Modification & Repair

DistributionNOW (DNOW), one of the largest global suppliers of valves and actuation is focused on providing a one-stop valve solution. Total Valve Solutions (TVS) is that complete solution. From the high quality valves we distribute, our actuation and modification capabilities to our highly trained field service technicians, we pride ourselves in offering a wide range of products and services with full TVS valve support across over 20 countries.

We manage large and complex project orders from Conceptual Design to FEED and EPC, supporting the project through the entire build program. By utilising our OEM trained service personnel we also provide Asset Management Solutions to our end-user customers when plants are up and running. Our Valve Management Software (VMS) manages the site's installed base of valves and actuators though the life of the plant, optimising inventory.

### GLOBAL NETWORK

DNOW can support your site construction & field operations from our strategic locations in over 20 countries

### ESTABLISHED SUPPLY CHAIN

DNOW maintains an extensive & audited supply chain of high quality valves from around the world

### COMPREHENSIVE STOCK

Strategically located stock when you require valves & actuation to meet time sensitive deadlines

### ONE STOP SOLUTION

Project supply, distribution, actuation, modifications, repair & site services - TVS offers a comprehensive one stop solution

# PRODUCT RANGE

We have a vast product and service range which has been influenced by and developed specifically for the industries we serve. Working in partnership with industry leading brands, we supply valves for Onshore, Offshore and Subsea applications.

- Quarter Turn Valves (Ball, Butterfly & Plug)
- Gate, Globe & Check Valves
- Axial Flow Valves
- Modular Double Block & Bleed Valves (Ball, Plug & Gate)
- Actuated On/Off/ESD/MOV/BDVs
- Choke Valves
- HIPPS Packages
- Control Valves (Globe, Butterfly & V-Notch Ball)
