

AccessNOW™ Crib

Inventory Control Solutions – Automated Storeroom

AccessNOW Crib converts any available space into a secure, unmanned automated inventory storeroom that can accommodate an unlimited number of items in all sizes and shapes. The efficient self-check-out system utilizes barcoding and RFID technology to automatically record each item removed from the crib, transmitting the transaction to the designated administrator.

Features:

- **Secure** – motion-sensing technology monitors and records all user/product activity
- **Reliable** – 3-year warranty on all parts
- Completely customizable enclosure secures any available space
- Provides 24/7 access to materials
- Easy to refill and reconfigure
- Dispenses products in singles or in bulk
- Doesn't lose power, even if your building does
- Automatically notifies you of electronic transactions
- Tracks asset check-in/check-out and expiry dates
- Reports tracking to job, equipment or cost center
- Transactions can be monitored from anywhere in the world

AccessNOW™ Solves Your Inventory Management Problems

- Stock-outs
- Excessive usage
- Lack of inventory management
- Shrinkage
- Little or no data collection
- Product expiration
- Transactional costs for placing redundant orders for often-used items
