AccessNOW™ Wave
Inventory Control Solutions – RFID Enhancement

DNOW®

AccessNOW Wave is an add-on that enables full radio frequency identification (RFID) capabilities for any of our other AccessNOW solutions, with a costup to 10 times less than other RFID products. RFID technology allows for quick check-out and check-in of materials through a user-friendly interface, maximizing inventory accuracy without the need to scan barcodes on individual products.

Features:

- **Secure** – RFID technology monitors and records all product removals and returns to the storeroom

- **Reliable** – 3-year warranty on all parts

- Includes a Wave platform and RFID tag returns bin

- Accommodates any range or size of products, from small products on the platform top to large, heavy items on the floor under the platform

- Reads multiple RFID tags at once – no need to scan items separately

- Tracks an unlimited number of SKUs

- Assigns and reassigns RFID tags to products within 15 seconds. Tags can be collected and recycled for later use.

- Doesn't lose power, even if your building does
AccessNOW™ WAVE

AccessNOW™ Solves Your Inventory Management Problems

- Stock-outs
- Excessive usage
- Lack of inventory management
- Shrinkage
- Little or no data collection
- Product expiration
- Transactional costs for placing redundant orders for often-used items
